EXPERIENCE

Interior Design Assistant

2021-2025

- Create cohesive design plans, coordinating furnishings, lighting, and color schemes to meet client preferences and functional needs.
- Work with industry-standard software tools (CAD) to produce accurate designs and streamline project workflows.
- Communicate with clients, delivering clear quotes and cost estimates to support project planning and budgeting.
- Collaborate with suppliers and contractors to source materials and maintain quality standards throughout the project.
- Use SketchUp and Enscape for realistic 3D renderings, and hand sketches to visualize design concepts and present them to clients effectively.

Interior Design and Architect Assistant

2015-2018

- Help selecting finishes, textures, colors, and decor elements to enhance the overall design aesthetic and meet client preferences.
- Stay informed on the latest products, materials, and systems, offering expert advice to create functional, beautiful, and sustainable spaces.
- Provide input on budget allocation for furniture and decor, ensuring quality within financial constraints and aligning with the project's design goals.

Head of Mathematic Department

2010-2015

- Collaborate with math teachers, contribute expertise, and work towards achieving common goals.
- Manage and develop clear project frameworks and processes for teachers in different schools to ensure smooth collaboration and understanding.
- Manage and Assist the principals and teams with special education services.
- Monitor and evaluate teaching methods to ensure high-quality instruction.
- Oversee scheduling of classes, faculty assignments, and use of resources like laboratories and software tools.
